1 Preamble

The Organization and Sporting Code (OSC) of the Ju-Jitsu International Federation (JJIF) in conjunction with the JJIF Statutes, Financial Rules and the Competition Rules is the binding document for the organization of World Championships, Continental Championships and all competitions held under the responsibility and auspices of the JJIF. It is not allowed to deviate from the OSC, except with the approval of the JJIF Board, for reasons beyond the control of the parties.

Specific procedures additional to the OSC will be issued for International Multi Sport Events (such as World Games, World Combat Games, Asian Games, Beach Games etc.). In this case, the JJIF nominates Technical Delegates to advise the Multi Sport Events organizers (MSO).

OSC serves as assistance and guideline for the organizers of national and other ju-jitsu competitions.

The organization of the World Championships and other international tournaments, hereafter International Event (INT-EVENT) approved by JJIF is the concern of the following bodies: the JJIF and the Ju-Jitsu National Organization (JJNOs) (according to the JJIF Statutes, the National members of the JJIF are National Federations or other forms of National Organizations; in this document, the term "national federation" will be understood as comprising all forms of organizations at the national level) which has been commissioned by a JJIF General Assembly with the hosting of the World Championships.

The correspondent Continental Union is involved as a consulting party and supports both bodies.

The Organizing National Ju-Jitsu Federation must name an Organizing Committee to deal with the organization of the INT-EVENT. The National Federation will, in any case, be responsible to the JJIF Board for the proper holding of INT-EVENT. The JJIF has final appellate jurisdiction.

For each INT-EVENT, a JJIF Organization Commission will be appointed by the JJIF Board, which has the task to assist the Organizing National Ju-Jitsu Federation and to supervise the organization of the INT-EVENT.

Any National Ju-Jitsu Federation hosting an INT-EVENT is required to work out a proposal concerning its organization on the basis of the OSC and the local conditions. The proposal must be submitted for approval to the JJIF Sports Director before the application deadlines defined in Section 2.1.

The holding of an INT-EVENT and the work of the referees will be supervised by the JJIF General Secretary, Competition Manager, Referee Director and Technical Director.

Commented [CB2]: Can one change this to Int-Event? Capitals look so ugly

Commented [CB3]: Update to Statutes 2016

Commented [CB4]: Not needed, since clarified in Statutes

Commented [CB5]: Never really done, maybe change to a person responsible

Commented [CB6]: We never did that

2 Types of INT-Events

The following INT Events exist in the JJIF

Name	Responsible	Amounts
International Multisport Events	JJIF & MSO	Defined by MSO
World Championships	JJIF	Once per year

Continental cups		
Regional Championships	JJNO & JJIF & JJCU	
Grand Slam (A-Class) Tournaments	JJNO & JJIF	
International Tournaments	JJNO

Commented [CB7]: This has to be finalized. I have no idea what the current status is. This is different from what Robert proposed

Commented [CB8]: We have this only for U15 right?

Commented [CB9]: Are they still a thing? JJEU does those, but I have no idea

Commented [CB10]: Since we don't have Class B this sounds weird

Commented [CB12]: Should be Provisional and Full National Members according to the Statutes 2016

Commented [CB13]: Does not exist anymore, replaced by office

Commented [CB19]: Really?

Commented [CB20]: Not needed when run with Sportdata

Commented [CB21]: One can always dream a bit right 😊

Commented [CB24]: Outdated?

Should the World Championship/event be cancelled by the Organizing National Federation, all or part of the organizing fee, following a **JJIF Session General Assembly** decision, may be forfeited to the JJIF for the payment of costs incurred thus far. In case the costs should exceed the organizing fee, they might be claimed from the Organizing JJNO.

Commented [CB69]: Moved from ceremonies, makes more sense here

Commented [CB70]: Hahah this is cool.. we should try this at some point

Commented [CB71]: Yes this is needed!

Commented [CB72]: Needed... then with printer otherwise its useless

Commented [CB73]: Does not perfect fit here, but I haven't found a better palce

5.6 Weigh in

During the official weigh-in each competitor has to submit his/her identity document (passport or identity card), where the weigh-in officials are checking the athlete weight and Nationality (see 5.3.1).

Commented [CB78]: Or Sportdata ID

Commented [CL79R78]: If accreditations cards with picture or/and qr code are used not necessary to have ID

5.6.1 General rules

The competitor himself must attend the control. During the control, the name, the age, the sex, the weight category for which the competitor had been entered shall be verified. At the world and continental championships, the weigh in will be held the evening before the fights. This weigh-in will take place in the presence of an official referee or weigh-in officers appointed by the JJIF Technical Committee.

Commented [CB80]: Like above Competition Manager or Sportsdirector?

Control of the weigh-in shall be the responsibility of JJIF Sports Director and JJIF Referee Director.

~~Every participant has to show an official passport or ID card, budopass and medical checkup.~~

Commented [CB81]: Double from above

The weigh in room must not be too crowded: A line or tatami will be placed at one meter before the scale. Only the fighter getting the weigh-in is allowed to cross this line/tatami.

~~In all JJIF events or other events held under JJIF auspices, separate rooms for men and women must be available for the unofficial and official weigh-in.~~

Commented [CB82]: We can kill this right

The Organizing Committee of the JJIF event shall make available a minimum of four (among them two women) officials on each day of the weigh-in to assist members of the Sports Commission and of the Referee Commission. To protect the privacy of athletes, officials supervising the scales shall be of the same sex as the athletes.

Commented [CB83]: Evening is the period of time at the end of the day, usually from about 6pm to bedtime

Official weigh-in control period shall be of two-hour duration, according to the official time scheduled program. It is only possible to make exceptions from the official weigh-in time for those delegations that asked permission in writing, in advance, and received confirmation thereof or in cases of force majeure, with informing the organizer.

~~Details of the weight in procedure can be found in the competition rules~~

Commented [CB84]: Referencing to rules

~~Competitors shall be allowed to check their weight on the official weigh-in scales during two hours before the official weigh-in commences. There is no limit to the number of times each athlete may check his/her weight during unofficial weigh-in.~~

~~Each competitor shall bring to the weigh-in his/hers Passport and shall present them to the Weigh-in officials, who will verify the identity and nationality of the competitor.~~

The official weigh in dress must be minimum a non-transparent T-shirt and a short covering the knees. (See Appendix 0) The weigh in is under the supervision of a Weigh-in Official, to ensure he/she reaches the minimum weight limit of the weight category in which he/she is entered.

Commented [CB85]: Rewritten

The Weigh-in Officials shall note and record on the weigh-in list the athlete's weight in kilograms (accurate to one decimal point of kilogram).

The athlete must sign the weigh-in list in order to recognize his/hers weight, only in case of athletes who do not comply with the weight category for which they were registered.

No tolerance shall be allowed above the weight category.

Only one (1) weight control is permitted to each competitor during the official weigh-in period.

Commented [CB86]: We usually did 2..

Should a competitor fail to appear for the weigh-in during the official weigh-in period, or fail to comply with the directions of Weigh-in Officials, or fail to comply with the requirements of the OSC, the word "FAIL" should be noted beside his/hers name on the official weigh-in list. The notation shall be signed by the Weigh-in Official in charge and a member of his/hers delegation. The athlete shall be excluded from the competition.

Commented [CL87R86]: In my experience :
- only one if test scale
- many if no test scale

Should a competitor weigh above the prescribed limits of the category in which he is entered, the exact weight shall be recorded in the normal manner, the weight shall be circled and signed by the Weigh-in Official and by the athlete. The athlete shall be excluded from the competition.

5.6.2 Duo system

In the duo system, there is no need for a weighing. The duos do have to register with an official passport or ID card, ~~budo-pass and medical checkup~~.

Commented [CB88]: Please not 😊 We usually allow that a representative can register them

5.6.3 Fighting system

Each fighter has to go to the weigh-in before he or she can participate.

5.6.4 Ne-Waza system

Each competitor has to go to the weigh-in before he or she can participate.

Commented [CB89]: This should all go in the rules

5.7 Recommendations about the requirements of the press

The press gallery, which must be inaccessible to any person without a press badge, preferably situated in the center of the competition venue, in the middle between the competition areas, shall provide enough seats (20-30) equipped with shelves and wall-sockets.

The press area in front could be used by TV for broadcasting, the area in the rear being re-served for the writing press. This area must be secured.

In front of the press gallery, inside the competition area, should be an official zone for inter-views and presentations of Medalists and VIPs.

A working room with tables, chairs and wall-sockets shall be provided. Within this room, the telecommunication unit shall be installed. The journalists shall pay for their private lines and, of course, for their communications.

Efficient and immediate result service shall be instituted; messengers to the press gallery will distribute the results of the competition. In order to assure an orderly distribution and use of the results they will be made available after each round in each weight category. At the end of the World Championship, a complete survey of results shall be distributed to the journalists.

The photographers (for better identification they should be provided with a "special jacket") shall be placed as close as possible to the mat, on the same side as the TV cameras, in order not to have the latter inconvenienced by flashes. Between 10 and 20 places shall be provided for photographers (depending on the organizing country), without obstructions within their field of vision (no referees tables in front of them, no obstructive passages). The minimum lighting for the mats shall be 1500 lux; however, 1800 lux would be better.

The Organizing Committee shall be responsible for making such facilities available.

The press service of the World Championship shall be provided by a Press Officer, to be designated by the Organizing Committee. It is recommended that the Press Officer is a journalist. In this case, he/she cannot work for his/her newspaper. A representative of the International Sport Press Association and the JJIF Media Commissioner will maintain liaison with the Organizers and the press officer in case of problems concerning professional duties and will assist the press officer in performing his duties, responsibilities and assignment.

6 Drawing

6.1 Generalities

The draw is held by Computer with the use of the JJIF authorized software.

Drawing procedures for all JJIF events are under the control of the JJIF Sport and Referee Directors.

There are two types of Draw possible:

- **Public Draw in front of the representatives on the JJNOS**
Maximum two delegates per National Federation may attend the draw.
- **Non Public Draw with only the XXX present**

Commented [CB90]: In Agreement with the IT meeting results

Commented [CL91R90]: for non public draw : JJIF + JJIF delegate (Sport-Director or other) + LOC responsible

The materials required for the draw shall be provided by the Organizer.

Immediately after draw has been finalized, the results shall be **made available online**, be distributed (two sets) to the National Federation representatives by the Organizer.

6.2 Need for redraw after excluding or including a competitor in a category

If, after the draw was made, another competitor should be included in the category, a redraw should be made. At regional championships, the redraw can be made without problems. At official international championships, no redraw is possible, except for unforeseen cases, when the JJIF Board may decide a redraw.

Those redraws can be requested up to XXX hours before the start of the competition, written or directly at the main secretariat

If, after the draw is made, a competitor is excluded, he/she/they is/are disqualified in this category.

-The original drawing will be displayed to the participants, coaches and public.

- The fight against the excluded participant is seen as 'kiken gachi'. The opponent 'wins' the fight against the excluded competitor and the category continues without any changes.

6.3 Different possible systems

6.3.1 Pools

(See attachments for examples of pools).

In a pool, every fighter or duo has to compete against all the other fighters/duos in the pool. This system is used if a category has 2 to 5 participants.

□ 2 fighters/duos:

o Best of three: Both fighters/duos compete each other at least two times. If both fighters/duos win each one fight, a third and deciding fight is held.

□ 3, 4 or 5 fighters/duos:

o Each participant competes with each other fighter/duo in the pool.

o A pool of 5 can be finished without breaks.

o A pool of 3 or 4 participants: these pools can't be finished without breaks. See also 'fight order'.

6.3.2 Combined pools

(See attachments for examples of combined pools).

Commented [CB92]: Sustainability!

Commented [CL93R92]: add : if mistake or problem, coaches must to inform organisation (IT ?) before the end of coach meeting.

Commented [CB94R92]: Good idea!!!

Commented [CB95]: In Agreement with IT meeting

Commented [CB96]: Here Christoph's work goes in

Combined pools will be used if a category has 6 participants. In this system, the participants are divided over 2 smaller pools. These pools are finished like a normal pool of 3 participants. After the finishing of the small pools, the cross finals and final are held:

- The winner of pool A competes against the 2nd of pool B and vice versa: cross finals or half finals.
- o The winners of these two fights go to the final to determine the winner and the 2nd place.
- o The 2 fighters/duo's who lost the cross finals get a shared 3rd place.

7

6.3.3 Trees

(See attachments for examples of trees).

The double elimination tree is used for categories with 7 or more participants. In this system, a competitor has to lose 2 fights before he/she is definitely eliminated and loses the possibility to win a medal.

The trees are made up in such a way as to avoid, as much as possible, that the same participants have to compete each other multiple times. Even though, this can't be avoided completely.

All the fights in a tree structure are numbered. This has 2 purposes:

- To decide the order in which the fights have to take place (see also 'fight order')
- A participant who loses his/her fight will get a second chance in the repechage. In the 'repechage tree', the number of the lost fight has to be looked up, as to determine where in this repechage tree the competitor will be placed (see example).
- o One exception to this rule: If the contestants who will compete for the bronze medal are known, it will be checked if these persons already fought each other. If this is the case, the two contestants who enter the repechage tree as last (in the example: the losers of fight 5 and 6), will be switched.

1st A-----2nd B-----Winner1st B-----2nd ASemi-
Finals (losers: shared 3rd place)Final

6.4 Seeding

On World and Continental championships, to the extent of the possible, there has to be tried to avoid that the 'strong' fighters/duo's come out to each other in the first rounds and disable each other's possibility to win a medal. This can be done by 'seeding'. To do this, a ranking list of the participants of each category has to be made. There is an official JJIF ranking list (this list will become available on the JJIF webpage). Another

Commented [CB97]: What is the current version

option is to look at the results of the previous championship (Continental/World championship).

The four (4) athletes leading their category in the JJIF World Ranking List are placed in positions 1, 2, 3 and 4 of the contest list in order to prevent them from competing against each other in the early rounds.

6.4.1 Pools

In a pool, there is no real elimination because either way, every participant has a fight against all the other participants of the pool. Therefore a seeding isn't really necessary in a pool.

Commented [CB98]: Slang, better is not necessary in a pool and will not be made

6.4.2 Combined pools

If combined pools are used, the seeding will take place by placing the first and second person of a ranking list in the different 'small pools'.

Example: The ranking of these six participants is

□ The participants have to be placed in the small pools one by one, and every time there has to be switched of pool in which the next participant will be placed.

6.4.3 Trees

In a tree, there are numbers placed at the sides, next to the place for the name of the participants. If there is a ranking list available, The first name has to be placed next to '1', the second next to '2' and so on. The trees are made up in such a way that, by doing so, there is an 'automatic' seeding.

6.4.4 Spreading the countries across the different parts of the combined pools/trees

After the seeding, also the spreading of the countries (or at regional championships: the clubs) has to be taken into consideration. This to avoid that participants of the same county (club) meet each other in the first rounds and eliminate each other in this way.

Commented [CB99]: New and should go up

6.4.5 Pools

In pools, it is preferred that, if more participants are submitted by the same country (club), these participants have to compete each other as soon as possible. Thereby, it is avoided that they meet each other in the last fight of a pool and can possibly 'decide' themselves who wins and who loses.

Commented [CL100R99]: what about participant of same country meet in semi-final (IOC request) ?
Joe ?

6.4.6 Combined pools

Spreading the countries (clubs) in combined pools is done in the same way as seeding: if there are more participants of the same country (club), divide them over the different pools and try to avoid to place multiple fighters/duo's of the same country (club) in the

same pool, if possible. If there do are multiple participants of the same country (club) in the same small pool, the rules of 3.3.1. should be applied.

6.4.7 Trees

In a tree, the countries (clubs) should be spread across the different halves or quarters of the tree.

12

6.5 Exclusion of a competitor after the start of the fights

If a fighter has given up his fight (willingly or not) already 2 times:

o He/she doesn't lose the points already made in previous fights.

o He/she is still allowed to compete in further fights.

Hansoku-make (disqualification): If a competitor has got a direct hansoku-make two times in the same discipline, he/she is excluded from that championship (by "championship" is understood the JJIF event with its three disciplines — Duo, Fighting and No-Waza).

o This participant also loses all the points he/she already made during the competition. Hence, he/she isn't able anymore to win a medal.

Commented [CB101]: I think this should more go in rules not in the Organisation code

7 Ceremonies and Awards

Commented [CB102]: This is all for WCh and ECh... Other events should be specified and a minimum standard should be set

Official Ceremonies are a very important part of any Championship. Apart from the positive image of ju-jitsu, ceremonies are showing the perfect programming and order of the Ju-Jitsu sport.

Ceremonies are confirming the high level of ethics of the sport and the mutual respect between Athletes, Coaches, Referees and Officials of JJIF.

Athletes: Athletes on the podium will wear the white competition gi, without any additional materials on their persons (flags, religious symbols, bottles of water, slippers etc.), according to SportAccord guidelines. (See also rules)

Officials: Formal attire is required (jacket, shirt, closed shoes, formal dress).

7.1 Seating of JJIF Officials:

JJIF Officials shall be seated in the designated Officials' area, where the opening and closing ceremonies and medals presentation take place. Officials shall be seated in two or three rows.

Refreshments, coffee, tea etc. shall be provided to these VIPs at the competition venue.

7.2 Opening Ceremony:

After the announcement of the opening ceremony and the cultural or sports' animation session, the delegations (~~competitors and coaches~~) in training suits will march-in, preceded by a placard bearing the name of their country, in full or abbreviated and their national flag (flags and board bearers shall be provided by the Organizer). The sign holders leading the delegations shall stand still in vertical rows facing the designated Officials area.

Commented [CB103]: We usually had 2 representatives per country... Maybe leave open, or write size specified by competition manager etc

The delegations are entering in alphabetical order, accompanied by music. The organizing country shall enter last, followed by referees and technical officials.

When all the delegations are present, the flags of the host country and of the JJIF shall be raised, followed by the playing of the host country's national anthem.

During the flags raising and the playing of national anthem of the host country, all the Officials shall raise.

These flags shall remain raised for the entire duration of the event.

The President of the host country National Federation shall give a speech, followed by that of the JJIF President who shall declare the opening of the event or delegate this honor to the highest authority present. High profile officials such as the SportAccord President, the President of the organizing country or Minister of Sports may also give official speeches.

The declaration of the opening of the event shall be done according to the formula: "On behalf of Ju-Jitsu International Federation I declare the opening of (name of event)."

Commented [CB104]: Wellll we kind of do that, but I'm not sure if this exact sentences was ever used

A presentation of the officials of the JJIF, and other officials and referees will be done.

March out of the delegations.

The time allocated for this ceremony is 30 minutes including the cultural and sports' manifestations.

Immediately after all delegations have marched out, the competition area must be thoroughly cleaned to protect the health of the competitors.

7.3 Awards Ceremony:

The awarding of prizes shall be carried out in the following manner: first two finals, first one award ceremony, followed by final – ceremony, final – ceremony and ending with the last two award ceremonies. Athletes dressed in their ju-jitsu gi shall be placed behind the podium according to the following order (2, 1, 3). Each competitor having won a medal must be present at the ceremony and receive the medal personally, if possible. Any

competitor who is absent from the awards ceremony without a good cause will forfeit his/her medal. It is strictly prohibited for athletes while on the podium to hold national flags. Any demonstration with religious, political, personal or commercial connotation is prohibited, as well as wearing a cap or any similar covers on the head (Islamic head-cover for female athletes is accepted). Officials who will present the medals shall be in a row facing their respective recipient. Officials chosen to give the award should be formally dressed.

The speaker of the ceremony must clearly announce the names and nationality of the recipients as well as the capacity of the Officials presenting the medals (see Texts in the Section 7.3.1). It is highly recommended that giant screens be used for the written announcement of medal recipients. At the announcement of the medal to be presented, the athlete should step up the podium, in the designated place. The Official shall advance at the same time as the hostess carrying the medals. The Official shall place the medal around the neck of the athlete. This shall be done for all the medal recipients (Gold 1st), (Silver 2nd), (Bronze 3rd). All the awards shall be given after the gold medal is presented. Participation certificates may be requested, in advance, by the participating National Federations and they will be prepared by the Organizer and given to the respective chiefs of delegation and not to the athletes.

Flags shall be raised at the same time but with a slight difference of level between them (1st one on the top, 2nd one lower than the 3rd one(s) lower than the others). When the national anthem (shortened version) of the winner's country is played, the Officials and athletes should turn toward the flags for salute.

Athletes' entry and leaving shall be accompanied by music. The awards must be presented in the following order: Gold – Silver – Bronze.

The honor of the gold medal presentation belongs to the JJIF President who can delegate this honor to high profile personalities.

7.3.1 Text for speakers

7.4 Closing Ceremony:

It shall take place after the presentation of the last medals of the last competition day with a parade of all participating delegations following the opening ceremony protocol. Before the announcement of the closure, the flags of the organizing country and of the JJIF shall be lowered accompanied by music (not anthem).

The trophy for the best competing nation will be awarded during this ceremony.

The President of the National Federation hosting the event shall present the JJIF flag to the JJIF President who shall solemnly present it to the representative of the country that will host the next JJIF event.

Banquets and Gala Dinner: During Gala dinner, official dinners and banquets, the National Federation President of the organizing country shall be placed to the left of the JJIF President. The SportAccord representative (or Olympic Committee representative) shall be seated to the right of the JJIF President. Spouses shall occupy every other seat from these three personalities. As much as possible, guests not at the official table shall be seated according to their status.

The official dress code shall be observed during these ceremonies.

8 Fight order

For the participants, an optimal fight order is a good balance between enough time between two fights and not too much. It's best that the different fights don't follow too soon, so the participants can recuperate. On the other hand, there can't be too much time in between the fights, to avoid cooling down and having to warm up again.

Between two fights of the same competitor (fighter or duo), there should be at least one other fight or a break of 5 minutes.

To assure a fluid course of the tournament, breaks in between fight should be avoided to the extent of the possible.

Therefore, trees should be processed in the order determined by the numbers of the fights written in the trees. If this is done, there should be no breaks, there is enough time between fights of the same competitor and the tree can be finished smoothly without any problems. (For example: see point 3.1.3: green circles around the numbers that determine the fight order.)

A large pool (5 participants) can be finished fight by fight without breaks. Smaller pools (2 to 4 participants) require breaks. To avoid that, on a tatami, there are no fights for a short while, different pools (or pools and parts of a tree/combined pools) can be mixed.

Commented [CB106]: We never never never did this... Mabybe one can say this will happen during a gala dinner it is optional

Commented [CB107]: Here again Christophs part

Commented [CL108]: meaby add that specific rules exist for each category

For example: 2 pools with each 3 participants, use following fight order: First fight pool A, first fight pool B, second fight pool A, second fight pool B, third fight pool A, third fight pool B

With combined pools, the pools as such can be finished without breaks (see above: example 2 separate pools). Between the pools and the (cross) finals, and between the cross finals and finals, there has to be a break. This break can be filled with a fight of another pool/combined pool/tree. (See example: the numbers above the pools, are the numbers of the fight order. Between fight 6 and 7 and between fight 8 and 9, a fight of another pool/combined pools/tree can be held.)

9 Processing the fights: determining the places

9.1 Pools

If all the fights of a pool are finished, the places of the participants are determined as follows:

- The competitor who has won the most fights, is the winner. The one with the second most winning fights is second, and so on.
- If there is an ex-aequo (a tie with respect to the number of matches won), the following rule will be applied:
 - o Points balance: for each competitor(s), a balance is made: all the points he/she/they made are added up, and the points made against this competitor(s) are subtracted. A ranking is made with the person (duo) with the most positive points balance is placed higher.
 - o If there is still an ex-aequo between 2 participants:
 - The fight between the two participants who have the ex-aequo will be looked up. The participant who won this fight, will be placed higher in the ranking.
 - o If all the above still give an ex-aequo, the fight(s), concerning the participants with the ex-aequo, will have to be redone.

9.2 Combined pools

The competitor who has won the final, is placed 1st. The loser of the final is 2nd.

With cross finals: The competitor(s) who lost the semi-finals is (are) placed 3rd.

The competitors who placed 3rd in the small pools, get a shared 5th place in the category. The competitors who placed 4rd in the small pools, get a shared 7th place in the category.

9.3 Trees

The competitor who has won the final, is placed 1st. The loser of the final is 2nd. The competitors who won the fights for the bronze medals in the repechage tree, are placed 3rd.

To determine the other places, the tree should be looked at backwards. For each 'step' gone back in the repechage tree, the competitors who lost those fights, get a shared 5th, 7th, 9th, place.

10 JJIF Qualification System

Based on rules 41, 42, 43 and 45 of the Olympic Charter, the JJIF Qualification System aims to ensure that the principles of Universality, Performance, Host-Country Representation and Gender Equity, remain the focus for the JJIF participation in multi-sport international events such as "SportAccord Combat Games" and "World Games".

Commented [CB109]: Included from other docuemnt

Commented [CB110]: And others...

10.1 Principles

In addition, a number of other technical principles and rules have been established to provide a basis for the development of the JJIF Qualification System.

10.1.1 Universality:

The participation of all JJIF National Federation Members is the key factor for guaranteeing the universality of such an event. The number of places reserved per sport will be decided in agreement with the Event Organizing Committee and will be the main parameter of the technical principles and rules of the qualification system in order to ensure that the maximum possible Ju-Jitsu National Federations - members from all five continents, will participate in the event. Each National Federation can participate with a maximum of six (6) athletes in both ju-jitsu disciplines (fighting and duo) with a balanced gender repartition, and with one contestant per weight category.

Commented [CB111]: Shoould be more general

10.1.2 Performance:

The principle of performance will be ensured through the Qualification System developed by JJIF, which allows the participation of the best athletes through a fair and transparent process. Existing events and/or rankings already approved by JJIF should be used for the qualification, as well. A reasonable percentage of the quota shall be distributed on the basis of the performance within the continents and shall reflect the specifics of ju-jitsu as a sport in terms of quota distribution between the continents.

10.1.3 Host Country participation:

In principle, the quota should include places for the participants from the Host Country. However, these places cannot be attributed automatically and should therefore be dealt with on a case-by-case basis, subject to athletes or teams reaching a minimum level of

performance. The number of the host-country places will be decided in agreement with the Event Organizing Committee.

10.1.4 JJNO delegation:

NFs have the exclusive authority for the representation of their respective delegation at the Event. NFs have the right to send competitors, team officials and other team personnel to the Event.

Commented [CB112]: NF is everywhere replaced by JJNO

10.1.5 Allocation and re-allocation:

Following a confirmation on behalf of JJIF of the qualified athletes, which is to be done not later than two (2) weeks after the last qualifying event, each NF will have up to one (1) month to confirm to JJIF that they will avail themselves of the obtained places. NFs that manage to qualify over six (6) athletes will be asked to designate the final composition of their delegation. Provision has been made within the JJIFs qualification system for the re-allocation of places having been not used by a NF, as well as for the unused NF's universality places.

10.1.6 Amendments:

If there is no agreement having been reached with the Event Organizing Committee, the JJIF Qualification System can be changed with the approval of the JJIF General Assembly. In case such an agreement exists, then it shall not be changed without the approval of the Event Organizing Committee.

10.2 Qualification System

The process of qualification will be executed according to the following rules and above-mentioned principles by a JJIF selection committee composed of JJIF board members and the technical commission. There are 4 forms of qualification.

Commented [CB113]: Added for clarification

10.2.1 Direct qualification from the JJIF World Ranking List:

The Ranks for qualification are be calculated as follows:

Only one (1) result (highest points) will be calculated per group of qualifying events. Groups of qualification events are: a) World Championships, b) Continental Championships per Continent c) Grand Slam tournaments¹

The qualification period is in general 24 months but can be changed if needed.

The four (4) best athletes who are over eighteen (18) years old at the qualification date (top of ranking list) will be entitled to a direct qualification for the programmed Multi-Sport International Event. This is valid for all weight categories of the Fighting System, Ne-Waza and the Duo System.

Commented [CB114]: Really needed

10.2.2 Host-Country Quota:

The athletes invited (wildcards) from the Host-Country can be maximum four (4), representing both genders, but the total number of athletes/couples cannot be more than seven (7).

¹Grand Slam tournaments must follow the rules of organization code

10.2.3 Continental Union Quota:

The remaining places are covered by the Continental Union quota, which allows no more than one (1) athlete per country (if eligible). This will guarantee that the maximum possible number of countries will participate in the programmed event. The number of places per continent is calculated as a percentage of the total JJNOs members of JJIF, with a minimum of two (2) places per continent (if eligible). The athletes shall be ranked and a selection will be done considering the position in the ranking system.

10.2.4 Qualifying participants from outside the JJIF World Ranking List:

In case the places should not be filled in through the above described procedures, or if the Continental Unions should be using the 2 minimum places, out of the JJIF World Ranking List, then the JJIF selection committee, would examine and assess the participation of the athletes proposed by the corresponding Union. These special cases will be considered with discretion, while the final decision will be made by the JJIF selection committee.

10.2.5 List of Reserves:

The List of Reserves will be made immediately after all qualifying places from the direct qualification, the Continental quota and out of the JJIF World Ranking List quota are being allocated; it is to be made up from the remaining athletes of the JJIF World Ranking List and the athletes proposed by the selection committee. The selection committee will be responsible for the List of Reserves as well as the final decision of replacements.

13.1 Nationally

In the following cases:

(I) where the competitions are being held in a country in which the residents do not hold passports, while staying in that country;

(II) where there is a possible problem of a “joint citizenship”, e.g. Dutch Antilles and the Netherlands,

an acceptable substitute for the passport will be another form of picture-ID stating Nationality and/or residence. If a competitor has multiple citizenship, he/she can compete for only one country. In a case when a competitor changes his/her citizenship, he/she shall be excluded from participation in World Championships until the matter is settled and in any case, at least for 3 years. If the two National Federations concerned agree, they may request the Ju-Jitsu International Federation to shorten the period of three years, even to cancel the duration.
